complex, computers, classrooms etc. The institute has maintenance wing that oversees the maintenance of buildings, classrooms and laboratories. The maintenance wing is headed by the Registrar who in turn monitors the work of the Supervisor at the next level. The infrastructure pertaining to physical, academic and support facilities in institute are regularly maintained to ensure that they are of maximum benefit to the students as well as teaching and nonteaching staff. Staff members are deputed to ensure maintenance of the campus. There are various committees like Library, Sports, Website Development, Gardening, Canteen, etc. to ensure proper maintenance and upkeep. Suitable budget is allocated every year for the maintenance of various facilities. The various committees meet regularly to monitor the optimum use of infrastructure which is accessible to the students and staff of the Institute. Most of the lectures take place in classrooms with projector, microphone and speakers. This is to ensure usage of new audio-visual pedagogical techniques during the teaching process. Along with this we have open classrooms where lecture is given. The institute has a Multimedia Section and Computer Section and there are technical assistants to ensure proper upkeep of the various ICT enabled classrooms including computer centre. The Computer Lab has been set up to be used by various departments. Students make extensive use of the facility for reading and research. The campus also offers facilities such as Canteen, Common Room and Gymnasium. A OPD dispensary and Hospital with doctor and nurse is available in the campus for first aid and hospitalization cases. There is Atisha Hall where plays and other cultural activities are performed. Both the Library and administration section of the institute have undergone computerization. The library is fully digitized and is open even after class hours. It has computer terminals with internet facility and large reading spaces. A regular update on new additions is provided by the library. A library committee works regularly to oversee the functioning of the library and various other committees' coordinate with each other to enable the students to get maximum exposure and participation and also to avail all the facilities provided by the Institute. An eco-friendly environment is of prime importance in the Institute. 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice - I- Research Work in CIHTS: A Milestone in Buddhology Tibetology

Objectives An enormous amount of Ancient Indian literature of Buddhism and other various disciplines were translated into Tibetan from Sanskrit. But unfortunately, most of the original Sanskrit texts lost in course of time. This great treasure of knowledge mandates rigorous research endeavors to restore them into Sanskrit from Tibetan versions and make them available into other languages like Hindi and English. Unpublished MSSs, another treasure, is to be brought out with thorough research. Creation of dictionaries of general and technical natures are part of the exercise. The research works in CIHTS is carried out as envisaged in the objectives of the University which makes a deep impact on revival of ancient Nalanda tradition and on modern system of knowledge and society. The Context The great tradition of the knowledge and wisdom of ancient Nalanda, Vikramshila and Tkshashila went to Tibet with huge amount of literatures translated along with the teaching transmission and practices. This legacy is one of the world's greatest treasure but preserved only in Tibetan as most of the original Sanskrit texts lost in course of time, particularly during the Chinese invasion. Hence, it was envisioned to restore the lost treatises of Buddhist philosophy, epistemology, logic, metaphysics, psychology, science of mind, medicine, arts and many others into Sanskrit from Tibetan sources and translate them into modern languages for general people. This also includes researches on unpublished rare MSSs which are critically edited and creation of lexicons of various nature. This knowledge system is still extremely relevant today as it reveals the realities of mind and matter comprehensively at a very high level. The legacy of Nalanda is very significant for India and for the rest of world as it has the potentials to benefit the entire humanity. The Practice The University undertakes research works with high level of scholarship in Indology, Buddhology, Tibetology, Sanskrit and various other languages with expertise in ancient Indian scripts in the case of research on MMSs applying modern research methodology. The practices of the five research departments: Restoration Department This department Restores the important lost works of the great ancient Indian masters like Nagarjuna, Aryadeva etc. of Nalanda and others. The restoration work is a tedious work which needs expertise in at least two languages, command on the subject and scripts. It is done with meticulous efforts to regain the originality of the text of the author with thorough research on his other works, in terms of vocabulary, style etc. So far around 90 works have been restored. This is the

only place in the world, where such works are done. Translation Department The Translation Department is also an important constituent of the Research Departments which engages itself in the translation of works of canonical texts of both ancient Indian and Tibetan masters thus making them available to wide range of readers from scholars to students and from practitioners to public. The translation and the restoration works are accomplished with thorough study and research on the text, content, author and related materials providing a complete information. Rare Buddhist Texts Research Department (RBTRD) A major portion of the ancient Buddhist texts in Sanskrit had been lost in India but some portion of this lost treasure still exist in Nepal and Tibet. The Rare Buddhist Texts Research Department conducts research on the hitherto unpublished Buddhist Tantric manuscripts written in various scripts and prepares critical editions of the Sanskrit texts along with their Tibetan translations with a thorough study and research. Dictionary Department When Mahayana Buddhism and Tibetan studies, began to gain popularity around the world, there was no comprehensive dictionary of Tibetan to Sanskrit. Hence CIHTS along its project of restoration of the lost Sanskrit treatises, launched the project of comprehensive dictionary of Tibetan to Sanskrit which took more than a decade to complete. Finally, sixteen hefty volumes come out in 2005. Many technical dictionaries are being compiled and are about to be published. Center for Tibetan Literature Tibet has a huge corpus or literature covering a wide range of areas. The Center established in 2009 is the first of its kind devoted to studies and researches exclusively on Tibetan literature. Its first priority is to write a comprehensive history of Tibetan literature. The draft in four bulky volumes are brought before the scholars for comments. It has been producing other important literary works. Best Practice - II- Centre for Teacher Education Objectives The objectives are as follows: • To develop robust pedagogical foundation amongst learners. • To prepare teachers with best teaching competencies and commitment. • To prepare teachers with self-confidence, scientific temper, caring and human values. • To awaken and develop the humane qualities of wisdom, loving, kindness and compassion, right view and conduct, and art of creativity and innovation. • To refine human perceptions and sensitivities to initiate independent and valid investigation into phenomenal and ethical spheres. • Integration of specialization in the respective disciplines, blended with moral values through mind education with a sound understanding of mental system and emotional intelligence. The Context CIHTS is committed to develop teacher educators in a holistic and integrated way by providing modern education with philosophy, logic and epistemology which are the traditions of ancient Nalanda Monastic University. CIHTS has started a four-year innovative integrated B.A.B.Ed. programme since 2014-15 and B.Ed. programme from 1999. The integrated four-year course has been designed in such a scholarly manner that the NCTE observed it as the best so far and was not only approved in the first go but also made it as the model course for others. Besides the regular subjects prescribed by NCTE, the curriculum has "Tibetan language and literature" as compulsory subject. This paper helps to develop the competence in Tibetan language and also preserve and carry the great cultural heritage of Tibetans people living in Himalayan region. Another compulsory paper "Fundamentals of Buddhist Logic, Psychology and Cognitive Sciences", which deal with the Tibetan methodology of Teaching-Learning, helps the learner to acquire the necessary skills to teach the subject through logic and concept mapping. The Practice In this programme, transaction of practical experiences does require theoretical transaction. Small class size aids in better transaction of practical experiences. The students study theories followed by demonstration of teaching skills under the micro teaching and simulation practices. School Internship Programme wherein the students will have to work in a broader spectrum of schools and community taking cognizance of various activities practiced in school and community development of the self, the child, community and school. School internship programme is divided in two part

as Internship I and II. Internship - I is of four weeks and will be spread over with course work before the final school based teaching Practice. It includes school visit, classroom teaching observation, school based activities and community based programmes. This will also comprise of development of instructional designs in the form of lesson/unit plans with formats/structure provided by CTE. Internship - II is a school attachment programme of 16 weeks. In this school attachment programme, students will be entrusted with the responsibility of teaching 60 lessons i.e. 30 lessons in each of the two pedagogy subjects under the supervision of B. Ed. faculty and the school teachers to which they are attached. In addition to the teaching work, students will be assigned the following tasks: • Observation of teaching in the concerned subject by school teachers. • Test paper construction and conducting classroom tests. • Participation in organization of co-curricular activities. • Library and lab management in the school. • At least 2 psychological tests: conducting report writing • Interaction during Teacher- Parents meet. • Improvising teaching aids based on assessment of classroom needs. • Maintenance of school records. • School Based Action Research Projects • Evaluation lesson. During this 16 weeks' internship, 8 weeks' of school attachment is with Indian schools and 8 weeks' in Tibetan schools spread across India. Apart from these experiential exposure, the compulsory paper in each semester i.e "Fundamentals of Buddhist Logic, Psychology and Cognitive Sciences", which deals with the Tibetan methodology of Teaching-Learning, the students acquire the logic and concept attainment through dialectics with traditional style of practice in Tibetan culture on the regular basis in evening with other students of CIHTS. On the basis of feedback received from the various stake holder during attachment programme, CTE has adopted the practice to revise the curriculum based on feasibility, and practicability of the task.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Buddhism and Tibetan Studies: The Legacy of Ancient Nalanda Tradition Nalanda Tradition reaches Tibet in entirety: The transmission of Buddhism from India to Tibet in 7th Century AD took place in an unprecedented manner that a huge literature, over five thousand treatises were translated along with transmission of knowledge and spiritual system from Nalanda, Vikramshila, Takshashila and others, the capital of knowledge in ancient India. The entire legacy was not only preserved, nurtured but advanced further in Tibet. Nalanda Tradition Back to India: After the Chinese occupation of Tibet in 1959, His Holiness the Dalai Lama, followed by many masters and thousands of Tibetans sought refuge in India in 1959. Right away, His Holiness re-established major traditional monastic Institutions in India so that the study and practice of Tibetan Buddhism and allied studies could go unimpeded. These monastic Institutions, where erudite Tibetan masters taught, became a source of attraction for scholars and students from around the world. Central Institute of Higher Tibetan Studies was established as a result of discussion between His Holiness the Dalai Lama and Pandit Jawaharlal Nehru with specific objectives to preserve the Tibetan knowledge system and culture, to restore the lost Sanskrit treatises from Tibetan sources and to provide educational opportunity to Tibetan and Himalaya students who lost the opportunity to go to Tibet for higher education and conduct researches on traditional subjects. Incorporation of the Nalanda Tradition into the Teaching Faculties is based on the objectives of preservation of Tibetan knowledge system. Accordingly, the academic programs

of teaching and research at CIHTS are designed. CIHTS has not only incorporated modern subjects and languages but also has programs and projects incorporating other Indian philosophical schools of thought, Western philosophy and modern sciences. The five Teaching Faculties of CIHTS were established primarily based on the classical treatises of the masters of Nalanda, Vikramshila and others.

The Departments of Mool Shastra and the Sampradhyayas Shastra focus on the treatises of Indian masters and Tibetan masters of different traditions covering a wide range of areas: philosophy, metaphysics, epistemology, logic, psychology, cognitive science, mind training and spiritual system, which itself is a huge domain. The Departments of Tibetan Fine Arts, Tibetan Jyotish and Tibetan medicine have substantial contents on ethics and Departments of social sciences, ancient and modern Languages also cover topics like universal responsibility, non-violence and altruism. The Teacher's education syllabus has incorporated contents on compassion, logic, epistemology, and regulation of emotions which are highly appreciated by the NCTE for making the course transformative for the first time in India. The Sowa-Rigpa Department with its rich unique tradition has units of teaching, hospital, pharmacy and research. The Department attracts patients from neighboring states and even from foreign countries for the treatment. Five Research Departments dedicated to the works of Nalanda tradition are engaged in various nature of researches related to the preservation and dissemination of the Tibetan studies rooted to Nalanda tradition: (1) Restoration, (2) Translation, (3) Rare Buddhist Text Research, 4) Dictionary, and 5) Centre for Tibetan Literature.

8.Future Plans of Actions for Next Academic Year

The future plan action of the Institute consists following points. 1. To fill the vacant position of teaching and research staff and decided to expedite the recruitments for teaching and research posts. 2. The Institute planning to be intensified the master of philosophy programme and with the inclusion of dissertation project such as the editing of Sanskrit and Tibetan texts or translation of the texts into Tibetan, Hindi, English and Sanskrit or restoration of a text into Sanskrit from the Tibetan Sources. 3. For smooth functioning of the teacher education center, there stands need of more resource persons for which Institute to keeping the efforts continued with MoC/UGC for creation of posts. 4. To provide training to the faculty and students of Shilpa Vidya for the purpose of curative and preventive aspects of conservation of paintings, it was decided that the Institute would make arrangement to depute both faculty and students of Shilpa Vidya to National Research Laboratory, Lucknow for Conservation of Cultural Property to receive proper training. 5. To the enhancement of the Sowa-Rigpa Department with necessary infrastructure and facilities including research and development sections, a separate Sowa-Rigpa Bhavan/Hospital must be constructed looking at the increasing number of poor patient's day by day. 6. The practical training of Sowa-Rigpa students be streamlined in order to cope with other medical system. For which the students of Sowa-Rigpa be encouraged to do the research on the medicinal herbs using modern scientific methods technology. 7. In the Shantarakshita Library there are huge collection of Tibetan texts and literature in the form of pothis and books. These texts books should be classified according to the modern classification system of the library. The classification system which is prevalent in Library is based on Ranganathan classification system. In this system there is no further detailed classification of the Buddhism and Tibetan Studies. A proper shape may be given to the text and books of Tibetan Buddhism studies could be classified at par with the groups of other fields. 8. The re-constitution of the IQAC membership including the external membership was discussed and it was decided that the

membership including the external membership will remain continued with the same members.
