Mobile No.:	9451472257, 7355704297	Email ID:	prashantecoau@gmail.com

Professional Summary (A maximum of 100 words):

My goal in teaching is to foster the acquisition of a base of concepts and learning skills to facilitate further learning and thinking. In all of my courses I guide students in the evaluation of evidence, critical thinking, argument development, verbal and written expression, and the application of general principles to novel settings. These competencies will equip students for a broad range of demands in future academic and occupational settings. Of course, I also expect my students to attain a high level of scholarship in specific content areas, especially in graduate courses in which course content is directly relevant to students' careers. To promote the development of general thinking and learning skills, as well as facilitate an understanding of course content, all of my courses are structured around three common themes: an emphasis on economic research, the development of writing skills and the generation of enthusiasm for scientific inquiry.

Areas of Specialisation & Research Interests:

Area of Specialization

Micro Economics, Population Studies and Health Economics

Research Interests

I would like to expand the existing knowledge and explore new ideas and thoughts. As I mentioned my area of specialization is population studies and health economics, beyond these I am trying to

exploresome newly emerging branches of economics like, Buddhist Economics, Econophysics and Neuroeconomics. I want to work more on these topics because what I have learned about these topics, is elementary level knowledge. I want to take this from elementary level to application level. Thus topics such as, Buddhist economics, Econophysics and Neuroeconomics are the-inter disciplinary areas. So I am looking forward for opportunities and platform to interact with the faculties and scholar of the subjects like, philosophy, sociology, psychology and physics and that will help me for better understanding about all the fields.

Teaching Experience:

- Teaching Assistant, for 2 years at Department of Economics, University of Allahabad (2011-2012 and 2012-13).
- I had been teaching since October 1, 2013 to September 14, 2019 at Central Institute of Higher Tibetan Studies well known as Central University of Tibetan University, Sarnath, Varanasi, as an assistant professor in Economics on contractual basis.
- Since September 15, 2019, I am working as an assistant professor in Economics at Central Institute of Higher Tibetan Studies, Sarnath, Varanasi.
