Dear Geshe Samten la

Advanced Losar greeting from Dharamsala!

As part of Indian government initiative to eradicate TB by 2025, we would like to do the active case screening in Varansi school from 12-14 February 2020.

Our initial plan was to do it in February or March but due to Losar and busy schedules of doctors in March, we were in touch with your school nurses to see for a more suitable date.

With your support, if we can do this activity, all the expenses related to the same will be borne by us.

Our hope is to have a TB free community and we will be very grateful to have your thoughts and suggestions on same.

Looking forward to hearing from you.

Dear Gen Tashi la

Thank you for your kind mail.

We planned to send one doctor and one nurse from Dehradun to your college to do the screening.

We initially thought about 17th-19th February. But your college Nurse la informed that some students might leave for Losar celebration.

So we thought to do the screening from **12th February to 14th February**.

Do you have any suggestions on the dates?

We will be very grateful if after finalization of the dates, you can kindly appoint a nurse to assist them and provide accommodation.

We will bear all the expenses related to the same.

Our doctor Wangdak la, trained in TB screening can also provide on site training to the medical officer of your school so that in future, we can detect and refer TB as early as possible.

Once again thank you so much for your kind response.

Looking forward to hearing from you

Warm regards

It will be wonderful to have your team to assist with the project.  
Our doctor is in the process of booking his travel arrangements.  
Meanwhile it will be very helpful if your school can initiate the initial process which Nurse Passang Dolma from your institution is familiar with and has been trained in.  
The initial process do not require a trained doctor and in all the schools and colleges, the trained nurses has experience handling the process.

By then, our doctor will also reach Varanasi.  
We look forward to collaborating with you in the future too, with any activity related to health promotion through screening, education and training.
